INFORMASI PENERIMAAN MASISWA MSIB V (MSIB V STUDENT ADMISSION INFORMATION)

[NEWS]

The Indonesian Computer University would like to thank the 39 MSIB V Partners who have trusted and provided opportunities for UNIKOM students to develop their interests and abilities.

We hope that UNIKOM students can contribute well and always maintain UNIKOM's good name.

Previously, CDC UNIKOM had attended the consolidation of MSIB V partners totaling 39 partners from 7 August - 12 August 2023.

In the consolidation process, partners explain an overview of the activity program that will be carried out by students along with Graduate Learning Outcomes (CPL), learning plans, and evaluation methods that will be carried out on students who take part in the MSIB program at the partner.
