Figure out how digital is transforming the way we live and work, how to develop mobile applications, all about data security, or 3D animation and game design, maybe learn about the “dark side” of the security and how to use “the force” the right way, have come to the right place! Welcome to the Summer School for international students in Europe!

Our Summer School program is anything but boring, it's more than lectures and workshops – the students will have time to meet outstanding and ambitious colleagues as we share the magic of Croatia with them. We want to introduce them to some of Croatia's world-renowned places and its rich cultural and natural treasures. The program offers a fantastic summer experience in the cities of Zagreb and Šibenik and enables the participants to explore the rich cultural and historical heritage of Croatia.

THE TUITION FEE ALSO INCLUDES:

- **CULTURAL VISITS:** Memorial Nikola Tesla, Smiljan; National park Plitvice; Quirky Museums
- **SOCIAL PROGRAM:** Zagreb & Šibenik day trips and sightseeing
