

IMAJI 3D

Imaji3D aims to bring 3D printing technology with all its possibilities to help designers, artists, business owners and professionals turn their ideas into reality by **printing their 3D designs** into real objects. We make prototyping **faster and more affordable**. Currently, **we are looking for 3D Model Artists** to become our design partners or contributors and join our maker community. Let's innovate together!

By joining us, you can.....

1. print your product ideas into real objects.
2. sell the printed products to customers and fans.
3. know how people love your products and get feedbacks to improve your products.
4. hone your skill to make better products.
5. connect with other designers and get inspiration from the community.

Join us, if you...

1. have a head full of innovative product ideas.
2. have a good skill in using any 3D modelling software, such as 3ds max, Maya, Solidworks, Rhyno, etc.
3. like to make 3D models of an object.
4. are interested in 3D printing technology.
5. seek a community of artists, designers, sculptors, or makers.
6. want to learn and improve 3D modelling skills.
7. possess sculpting skills and sense of art

Join us by sending an email titled "[3D Artist] Name " to info@imaji3D.com along with your profile and portfolio before February 14th.

We will further explain about how you will contribute and how you will receive all the benefits after your application is admitted. Should you have any urging question, please send us an email.

WE ARE HIRING

PT. Indonesia Technologies Venture (IndoTech) is a company focused on searching and developing cutting-edge technologies that can leverage Indonesian people's life. Currently, IndoTech has a partnership with a California-based 3D printing manufacturer to introduce the 3D printing technology to Indonesian market. For that purpose, we are looking for people who can help us to market, sell, and introduce this innovative technology to industries or customers. This vacancy is based in Jakarta.

JOB POSITION: SALES ENGINEER

Job Description:

1. Introducing and presenting 3D printing technology to industries or general Indonesian customers.
2. Making a list of potential customers and building a good connection with them.
3. Promoting and selling 3D printer unit to customers.
4. Offering 3D printing service.

Criteria:

1. Candidates must possess at least a Bachelor Degree in engineering, architecture, marketing, or equivalent.
2. Man/woman, max 27 years.
3. Previous experience as technical sales is preferred.
4. Have passion in technology.
5. Have a good computer literacy.
6. Good communication and presentation skill, both in Indonesian and English.
7. Highly motivated to achieve sales target.
8. Have own vehicle and driving license.

Benefits:

1. Competitive Salary
2. High Sales Commission
3. Health Insurance

Send your letter and CV as soon as possible to hizkia@indonesiatechnologies.com. The email must be titled "[Sales Engineer] *Name*". The application deadline is February 14th, 2015. Early applicants will be prioritized. Interview invitation will be sent via email. Inquiries could also be sent to the email above.
