WELCOME

ABOUT US

We are subsidiary of CINOVASI (www.cinovasi.com), established in 2015, as a Technology Research & Development company who envision to produce useful creative products based on technology.

Powered by artsy, unique, computer geeks people who are also considered as technology savvy persons, we believe to have an excellent ingredients in producing excellent products that will add positive values to people or even to organizations. Product excellence will be our priority because we make a fine tuning in defining every line we draw, every pixel we design, and every coded line we produce..

WE HAVE A MISSION

Create something valuable for the world!

WE ANALYZE

Analyzing people behavior, trends, technologies inspires us for IDEAS!

WE EXPERIMENT

We make ideas alive! Experimenting is our way to validate the ideas.

WHAT WE DO?

WHAT MAKE US DIFFERENT

We are passionate about cutting-edge technologies... We admire beautiful art and designs... We learn how people think and interact with devices... And we believe technology encapsulated by brilliant design with a great user experience will produce products that amaze you! That is simply what we do!

TAILOR MADE APPLICATION

Web/Cloud-based or Desktop Apps with beautifully crafted design for user comfort, beautiful lines of code easy for improvement and maintenance, robust and high performance, completed with manageable apps security system. Thats our software definition.

CREATIVE PRODUCT DEVELOPMENT

Limitless creativity! We envision that technology will enhance creativity. Creating a wide variety, creative product for many purposes, such as decoration, exhibition, promotion, etc.

BUSINESS INCUBATION

Anyone in the world has IDEA. But the difference is the one that makes the IDEA becomes reality through real execution. We surely love to help the best of it to become existence.

DESIGN SERVICES

Good design is good business! And it is an art on how to pleased the user when working with your product.. We would love to help you for that!

PENASCOP

(BILLING & INVOICING SYSTEM FOR SHIPPING OPERATION)

PROJECT

PENASCOP BILLING & INVOICING SYSTEM

Penascop Maritime Indonesia as one of the biggest vessel agent in Indonesia, needs a system that automates the proforma invoice and the final invoice that has to be coordinated with many branch offices or local partner throughout Indonesia. The system also provide a flow of approval process and also a dashboard for the directors to monitor the business.

WOW Teknologi helps Penascop to build the system from scratch, collaborating with the users to design the business flow, designing the Web UI by our UI/UX Designers, developed and tested by our Web Apps Developer team.

PAGE HOME / ABOUT US

SERVICES

Limitless creativity constrained by contents and user. This is the base of our thinking. That's why every project will begin with analysis on where the projects stands alongside their contents and user. Followed by prototype development, and then define the UX to make the project relevant as time goes by. This ensure the project future proof by content and user experience. There's not one idea or project we develop that we don't believe in. So, if you're looking for a team that will push your projects to the limit of it's potential, give us a call.
