are committed to
provide quality IT
solutions with
dedication to exceed
the satisfaction of our
customers.**

Define. Design. Deliver.

IT Group, Inc. (or **ITGI**, as commonly called) Is an enabler and partner of businesses in service innovation, is focused on solving the challenges faced by growing businesses through the synthesis of information, insight, talent and technology.

IT Group, Inc. has developed and managed projects ranging from enterprise application implementation and deployment, development or building of mission-critical applications,

We provide your business with a top-level part-time consultant who provides what your business only occasionally needs - an expert who can get big problems solved immediately, and who can help you make important technical decisions and choices.

We have a good knowledge of what is actually happening in information technology, which technologies and products are being used successfully, so that you aren't sorting through vendor claims on your own.

We have excellent contacts among the tech community with many different kinds of expertise, so we can get a question answered quickly and informally. We can also arrange for services from techs with specific skills, getting talented people for a good and fair price.

We pride ourselves not merely on our technical proficiency, but on the integrity and ability to understand and communicate with each of our clients. We will provide you the best options and solutions and to clearly communicate these software development options to our clients to enable them to make the best use of their resources.
