Our specialities are using the latest cutting edge open source technologies such as Ruby on Rails, Django, Laravel, Vue, React, Angular, Ionic Swift and more..

What We Do?

We design and develop awesome apps for web, desktop and mobile development

Desktop Development

Web Development

UI / UX Design

Mobile Development

We Build the Stunning and
Functional Softwares for You..

Web Applications

Development is our core area of expertise and passion. We build elegant and functional web solutions using Ruby on Rails, React, Angular, Django, Laravel. Simple and intuitive or extensive and complex - we can build it with you.

Mobile Development

We deliver apps essentials at your finger tips. Functional, flawless and easy to use. Tell us your plan and we'll make it happen.

Desktop Development

We build cross platform desktop apps (**Mac, Windows and Linux**) for all your business needs with JavaScript, HTML and CSS using Electron.

UI / UX Design

The look of your web and apps are mirroring the whole of your business. it's reflecting your creativity and will make you looked different from others. As a web development company, we understand this matter is really important! that's why we offer you the UI/UX Design service to make your website and or mobile apps look more interesting and attractive when visitors come by. Tell us what look you like or simply trust us to make it different based on your business goals.

Technologies

We always use the most updated and cutting-edge technologies to build outstanding applications whether it be for web, desktop or mobile platform. We are Ruby on Rails, Django and Laravel experts, but building great products would not be possible without knowledge and extensive usage of many other things, e.g. HaProxy, Nginx, Due JS, React JS, Angular JS, Ionic, Electron, PostgreSQL, Redis, Redshift, AWS, Heroic, Swift and many more.

3. **Path yang terbaik**

Bandingkan penawaran dan profil usaha penyedia jasa lalu hubungi penyedia jasa yang Anda inginkan

Pekerjaan rapih banget, tukang dan mandornya juga ramah banget. Terus enak juga minta pendapat / saran ke mereka, untuk masalah harga sesuai kualitas kerja dan juga bisa nego. Pokoknya mantap Mas Tukang.
Hendry

Pak Eko tidak ragu untuk berkontribusi material maupun non-material agar pekerjaan selesai dengan cepat dan baik. Pak Eko juga memberikan garansi 3 bulan atas pekerjaannya. Terima kasih.
Alif Rachman

Menjadi Penyedia Jasa

[RETAHBI CARANYA](#)

Desktop Development

We build cross platform desktop apps (**Mac, Windows and Linux**) for all your business needs with JavaScript, HTML & CSS using Electron.

Back-end Development

Web applications development is our core area of expertise and passion. We build elegant and functional web solutions using Ruby on Rails, React and more. Simple and intuitive or extensive and complex - we can build it with you.

Front-end Development

The look of your website is the mirror of your whole business and your offers, it's reflecting your creativity and will make you looked different from others.

As a web development company, we understand this matter is really important! that's why we offer you the web design service to make your website and or mobile apps look more interesting and attractive when visitors come by.

Mobile Development

With us you can create the mobile applications of your own and give you a great experience in exploring the technology through your hands. There are many mobile applications you can rely on for your daily and business activities, such as social media, travel, translator, GPS, or even your mobile version of your website. Tell us your plan and we'll make it happen.

Integrations

Today it's hard to imagine web products not linked to popular services. Our Ruby On Rails, Django, and Laravel developers have implemented a bunch of different integrations, e.g. social networks (Facebook, Twitter), payment systems (Paypal, Stripe, Braintree), geo services (Foursquare, Google Maps/Places, Yahoo Local, Yelp, etc.), email marketing (Sendgrid, Mailchimp), business tools (LinkedIn, Zendesk, Pivotal Tracker), etc.

Now

Now 41studio business not only web development but also penetrated into mobile application development and desktop apps to serve customers both startup and corporate, local and international.

2011

Founding of 41studio employs 5 people web developers who work onsite

2013

Along with the development of consumer confidence in the company's business, the demand for services

2009

41studio was founded by Hendra nicholas early 2009.

Story

41studio was founded by Hendra Nicholas on early 2009. In the beginning there were 5 people who working onsite as web developers, along with the growing up of company business and increasing the demand to our services now we have about 30 developers working onsite and serve mobile and desktop application development as well.

Meet The Team

SOLID TEAM

We believe in every big project, there is solid and reliable people. Get to know our genius software architect developers behind every awesome product creations.

What Are They Saying

Mark Feinbergh
Founder of Uruut USA

“ 41studio team is now a true part of our team and expect will remain so for a very long time. We will have plenty of work from launch on out and they will be our first and only choice to perform that work. They's fantastic.

Christopher Kaminski
Founder of Deluxis USA

“ 41studio team went above and beyond the call of duty during our project. His highest priority is customer satisfaction!

William F Ianagan
CEO of Tempus Group USA

“ Hendra and his team have worked with me for the better part of 3 years, over several iterations of my product. Always working hard, taking the time to understand details, they were and hopefully will be a continued core part of my team. I came to Hendra with just a vision. He made it a reality. I owe a great deal to him. If you need a true technical partner, I'd strongly recommend him.
