

WE ARE HIRING

ERRAI PASIFIK, PT

PT. Errai Pasifik is a software development company with Silicon Valley startup values at heart. We work hard and play hard. We like to try new things and find new ways to work better and smarter. Based in South Jakarta, the company was established in 2013 by some Indonesian developers who have been working with companies in The Valley.

One of our first clients is a very establish company we know very well, having worked for them in the US. It is an exciting multinational company with offices in the US, Europe, Australia and Hong Kong. If you join us, you will be working closely with their San Francisco-based software development team.

We're looking for those who are excited about building quality software and working with people from around the world.

The positions:

FRONT - END WEB DEVELOPER

You'll be working on our end-user self-provisioning site, our corporate site and various mini-sites as needed. You'll be working with the latest technology in Web Development like HTML 5, CSS and AJAX.

For this role, you will need to have:

- Expert knowledge in HTML 5, CSS 3, JavaScript, jQuery
- Knowledge of programming skills using Microsoft .NET technologies, C# .NET and ASP.NET is a plus
- Ability to communicate in English, both verbally and written
- Bachelor's degree or equivalent work experience
- Senior and junior positions are available, fresh graduates are welcome.

We offer nice benefits:

- A competitive salary
- Medical insurance

C# .NET DEVELOPER

You'll be working on different aspects of our back-end systems, from web services used by our partners to interact with our system, billing and rating engines, web services used by our mobile applications, and various tools for our customer support team.

For this role, you will need to have:

- Programming skills using Microsoft .NET technologies, C# .NET, ASP.NET and SQL Server
- Basic C++ knowledge will be a big plus
- Ability to communicate in English, both verbally and written
- Bachelor's degree or equivalent work experience
- Senior and junior positions are available, fresh graduates are welcome.

We offer nice benefits:

- A competitive salary
- Medical insurance

SOFTWARE QUALITY ASSURANCE

You'll be responsible to manage and develop new automatic test suites to automate most of our testing. You'll be performing load test, write performance report and write up detail analysis of bugs to our engineers.

For this role, you will need to have:

- Good Knowledge and experience in using automated test tools
- Scripting skill using Python, Powershell etc
- Good analytical skill and detail oriented
- Ability to communicate in English
- Bachelor's degree or equivalent work experience
- Fresh graduates are welcome.

We offer nice benefits:

- A competitive salary
- Medical insurance
