

PT. GAJAH ANGKASA PERKASA

WELCOME TO

PT GAJAH ANGKASA PERKASA,
an intergrated manufacturer of textile
with the aim to meet customer needs
and always innovating in
fabrics development.

WHO WE ARE

Established in 1970, we have placed ourselves as the top leading company in its industry through our different production stages such as Weaving, Dyeing, and Printing and named ourselves PT Bandung Synthetic Sarong Mill (PT BSSM), because we were the leading Sarong (Indonesian traditional material) manufactures.

As time continues, our factory has grown providing all kinds of polyester materials including Men Suiting, Ladies Wear, Gordyn, and still, Sarong. To better represent our line of products we changed our name to PT Gajah Angkasa Perkasa.

Texturizing, Weaving Preparation & Weaving

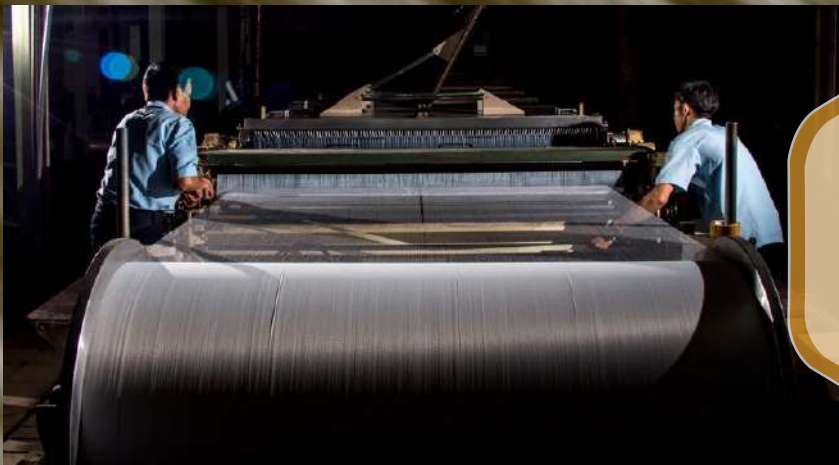

We are surrounded by good technology and best workers
to support all of customer needs.

TEXTURIZING

methods to make yarns more opaque, improve look and touch, boost warmth and absorbency

TWISTING
a single yarn is formed by twisting fibre of filaments in one direction

SIZING

process of coating yarn to reduce the breakage

WARPING

defined as the parallel winding yarn from cone or cheese package into a warp beam

RAPIER
shuttleless weaving
loom in which the
filling yarn is carried
through the shed of
warp yarns to the other
side of the loom by
finger-like carriers

WATER JET LOOM

same principles as
rapier looms, but it
take the advantage of
pressurized water to
propel the weft

Dyeing, Printing Finishing and Inspecting

DYEING

adding color to textile products like fibers, yarns, and fabrics with special solution containing dyes and particular chemical material

PRINTING

Predetermined coloured pattern on fabric with definite repeat

FINISHING

Stenter machine that determine dimensions, heating, apply finishing chemicals, and adjusted variation shade

INSPECT

to ensure an export standard fabrics requirement, our products have passed **QUALITY CONTROL** with detailed hand checked (implement 4 points system) and personal touch

OUR PRODUCTS

Our top priority would be to provide excellent services for our customers through our marketing staffs supported by various high quality polyester products. Therefore, we believe we can gain a high level of trust from our customers in order to continue growing and achieving profitable business.

Focusing and dedicated to 100% polyesters such as suiting, ladies, sarong, gordyn, etc. We guarantee that our product can compete with the best qualities that are available.

SOCIAL RESPONSIBILITY

We believe that a healthy environment will bring best impact to our productivity. We always give a special priority to keep our environment clean.

We are fully aware that polluting is not only destroying environments but also affecting our employee's and people health that lives around us.

Therefore, we have water treatment facility to recycle water safely back into the environment to prevent the area around the factory from being polluted or damaged. Our water facility has been tested and complies with all requirements from the government.

Moreover, green trees and shrubs are planted around the factory in order to help to reduce pollutions and produce fresh air and keeping our water clean.
