About Us

WHO WE ARE

PT. Daya Indosa Pratama started its activities in IT field in we 2007, and become Microsoft Business Solution Partner **focusing in Healthcare Industry, including Insurance industry**.

In difference with other IT insurance vendors, we started with our activity building Hospital Information System. Therefore, it could be expected that we are able to address all insurance requirements which are related to hospital services.

We are also an implementer of Microsoft Dynamics ERP system for business and industries to meet our commitment – delivering proper and up to date technologies to the customers.

Our programmers, system analysts, business process analysts, and the management keep updating our knowledge to the newest technologies, i.e. UML, Java, Oracle, Linux, Windows .NET, mobile apps and many other development tools.

VISION

to become one of the best developed IT solution provider in Healthcare and solution Industry.

MISSION
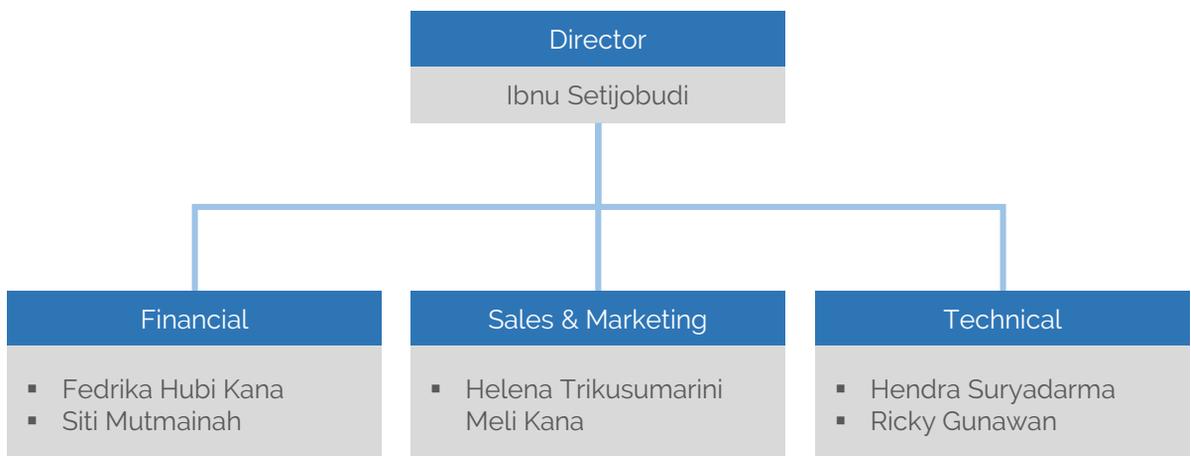

Providing best and proper services and solution.

Developing human resources.

Following the development in information technology.

Applying proper technology in product development.

Products & Services

04.

1 Healthcare Insurance **Claim Handling**

To automate claim data delivery (and groupped into insurance benefit code), to simplify the process (and eliminate double data entry) and to minimize operational cost & maintenance workload. The solution includes claim handling solutions for Insurance (**HM-Insurance**) and Healthcare Provider (**HM-Provider**).

2 Integrated – Collaborative **Healthcare & Customer Services**

The solution is for Provider and Insurance. Provider can provide omni-channel information media and facilitate patient / family to access healthcare services (book / appointment, homevisit / homecare, teleconsultation, e-referral, etc.). Similar to provider, insurance can facilitate member to access policy profile, claim reimbursement submission, etc.

3 Healthcare **Information & Administration** Management

Business Management solution for healthcare Provider (Hospital). It includes healthcare service management (Hospital Information System – HIS) and financial management (**AFYA-HIS & Dynamics**).
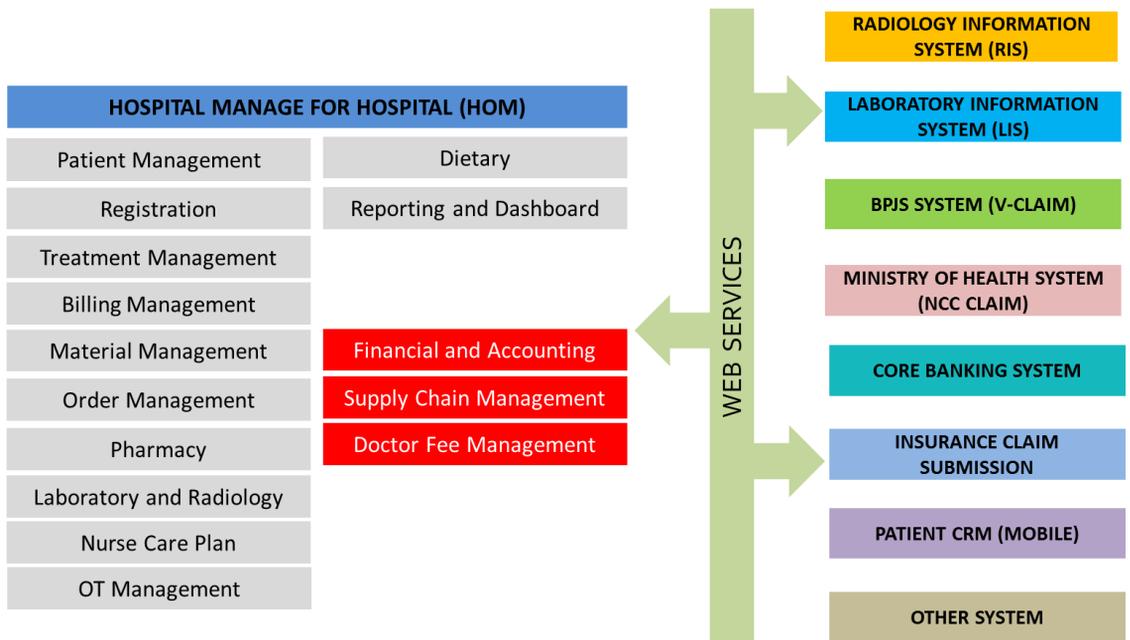

4 Edu Manage

A comprehensive management information system for universities and higher education institution. Edu Manage helps universities and higher education institutions to manage their student informations, lecturer informations, subject informations, curriculum informations, tuition information, and course informations..
