SOFTWARE ENGINEER

LUMA - CREATING MODERN ENTERPRISE SOLUTIONS

Founded in 2019 by ex-Silicon Valley engineers from **Facebook Inc** and **Canva**, **LUMA** implements large enterprise solutions while creating a suite of software products.

Come Join Us at LUMA!

- Be part of something special
- We empower people to grow
- You'll have the chance to work closely with the cofounders
- Plus you'll also experience interacting with our clients to deliver their product
- Learning in a fast-moving Agile startup environment
- Clean code and good design practices - who doesn't love this?

What we look for:

- Have 1+ years production experience in web development
- Have used Linux and Git in previous work experience
- Deep care and focus on our product design and the user-experience
- Must have skills: Node.js, JavaScript, ReactJS, PostgreSQL, Linux, Git

Are you a passionate and driven problem-solver?
Join LUMA today and be part of our awesome team!
