# OPEN RECRUITMENT ! PROGRAMMER (LARAVEL BACKEND DEVELOPER)

## Job Brief

We are looking for an experienced Back-end developer to join our IT team. You will be responsible for the server side of our web applications. If you have excellent programming skills and a passion for developing applications or improving existing ones, we would like to meet you. As a Back-end developer, you'll work closely with our engineers to ensure system consistency and improve user experience. Ultimately, you should be able to develop and maintain functional and stable web applications to meet our company's needs.

## Responsibilities

- Participate in the entire application lifecycle, focusing on coding and debugging
- Write clean code to develop functional web applications
- Troubleshoot and debug applications
- Perform UI tests to optimize performance
- Manage cutting-edge technologies to improve legacy applications
- Collaborate with Front-end developers to integrate user-facing elements with server side logic
- Gather and address technical and design requirements
- Provide training and support to internal teams
- Build reusable code and libraries for future use
- Liaise with developers, designers and system administrators to identify new features
- Follow emerging technologies

## Requirements

- 25 Years old or younger is preferred
- 1 Year minimum experience
- Fresh Graduate Welcome
- Proven work experience as a Back-end developer
- In-depth understanding of the entire web development process (design, development and deployment)
- Hands on experience with programming languages like PHP
- Strong knowledge and proven experience using LARAVEL framework, composer package & laravel package
- Well understanding of backend service (Web server, SQL based database server, queue service, etc)
- Working knowledge of Restful API
- Get used to design pattern/software design (microservice, monolithic, multi layer design, MVC, etc)
- Familiarity with standard development web apps and development software in general (Get used to GIT workflow, Dependency manager [Composer, NPM, etc Trello, etc)
- Familiarity with front-end languages (e.g. HTML, JavaScript and CSS)
- Excellent analytical and time management skills
- Teamwork skills with a problem-solving attitude

## How to Apply

Send your CV with subject :

# OPEN RECRUITMENT ! PROGRAMMER (MOBILE APPS DEVELOPER)

## Job Brief

We are looking for a qualified Application Developer to design and code functional programs and applications. You will work as part of a team and individually with little supervision.

A great Application Developer has excellent knowledge of at least one programming language. They must be familiar with a variety of operating systems and platforms. The ideal candidate will also have an analytical mindset and a keen eye for detail.

The goal is to write "clean" and flawless code to produce fully functional software applications according to requirements.

## Responsibilities

- Understand apps requirements and how they translate in application features
- Collaborate with a team of IT professionals to set specifications for new applications
- Write high quality source code to program complete applications within deadlines
- Perform unit and integration testing before launch
- Conduct functional and non-functional testing
- Troubleshoot and debug applications
- Evaluate existing applications to reprogram, update and add new features
- Develop technical documents and handbooks to accurately represent application design and code

## Requirements

- Proven experience as application developer.
- Experience in designing and building applications.
- Ability to program in native\_or\_hybrid mobile apps development.
- Experience in IOS development and PWS application is a plus.
- In-depth knowledge of programming for diverse operating systems and platforms using development tools.
- Good knowledge of web frontend development (HTML, CSS, JavaScript, frameworks and web frontend library)
- Excellent understanding of software design and programming principles.
- Excellent understanding of backend service (Web server, SQL based database server, queue service, etc).
- Excellent understanding of standard development web apps and development software generally (get used to GIT workflow, Dependency manager, Trello, etc).
- A team player with excellent communication skills.
- Analytical thinking and problem-solving capability.
- Great attention to detail and time-management skills.
- Certified application developer is a plus.

## How to Apply

Send your CV with subject :  
"LAMARAN MOBILE APPS"  
to : [tech@billionairestore.co.id](mailto:tech@billionairestore.co.id)
