03/XTR/HR-Rec\_NOR/X/16

#### **Back-End Developer / Mountaineer Programmer**

As a Back-End Developer, you will be introduced to ASP.NET development platforms and will be actively involved in building highly responsive websites. You will be tasked with complex programming obstacles that test your skills and eventually train you to climb to the top.

**Yessoo** values developers with raw instincts in programming and the determination to scale Alpine mountains, not hike small hills. We look for talents who are up for the challenge of meeting our high standards in improving user experience without sacrificing performance and speed.

Do you aspire to stand atop the highest peaks with us? Join us now.

#### **Responsibilities**

- Create and develop maintainable software beautifully
- Work in teams to analyze and resolve software development problems
- Create and simplify technical documentation
- Recommend and build future upgrades based on analytical issues
- Collaborate with us to finish our cookies, then have fun and spread it around the office

#### **Requirements**

- A passion for programming
- Solid analytical thinking skills
- Good written and verbal communication skills
- Experience in [Git](#) Workflow is an advantage
- Fresh graduates are welcome to apply

#### **PHP Developer / The Troopers**

To reach the top of mountain, willpower and strong mentality are the key point. Like the troopers do, **Yessoo** require PHP team like a trooper to gain our target collaboratively with **Yessoo** adventure team. Join with us now and be part of our trooper adventure team.

#### **Responsibilities:**

- Developing also testing PHP web based applications
- Ensure all code is committed to the code repository on a daily basis, tagged and commented accordingly.

- Maintenance & develop web applications in various scales
- Recommend and build future upgrades based on analytical issues
- Collaborate with us to finish our cookies, then have fun and spread it around the office

**Requirements:**

- Min Bachelor from Informatics, System Information or Computer Science
- Have a solid analytical thinking skills
- Expertise in PHP development
- Experienced in [Git](#) Workflow
- Experienced in WordPress plugin development is a plus

**Development Administrator - The Scenarist**

All strategies, tactics and maneuvers will be formed sharply to reach our objective team. Development Administrator or The Scenarist will provide [Xtremax](#) Adventure team to build synergy activities with all The Mountaineer Programmer. Brave enough to join with our adventure team?

Join with us now.

**Responsibilities:**

- Administering development management routines, reporting and taking necessary actions upon deviations.
- Develop internal tools to automate manual administration tasks in our development management process.

**Requirements:**

- Willing to work for a repetitive tasks while there is no automated solution yet.
- Have a passion in learning programming & developing software to automate tasks.
- Have a little bit background in Computer Science
- Familiar with programming terms
- Able to speak and write in English
